The suitability for any Granny Flat to be submitted to council or a PCA as part of a Complying Development Process (Guanteed 10 day approval process) is determined in Stage 2lf a Complying Development Application is not suitable for the site, a Development Application and Construction Certificate needs to be lodged. Development Application and Construction Certificate Applications will be subject to an Aspect Z fee proposal to prepare additional council documentation.

## NOTE 2:

Costs for architectural plans are included in overall costs outlined in stage 2 (Options 1-4) and 3.Additional costs (Refer to hourly rates) are applicable only with changes from standard design of any particular granny model after the agreement is signed.

## NOTE 3

All fees payable to either council or private certifier for approvals are required to be paid by the owner. Fee proposals from the relevant authority will be obtained at design completion.

## NOTE 4:

Any additional site specific requirements will be notified at this point and can include the requirement for consultant input on the following: Bushfire Management/Acid Sulphate soils/Flooding (Including but not limited to). Costs for any of these additional consultant items are required to be met directly by the client.
